## PROFILE

Passionate Frontend Developer with almost three years of experience, specializing in Vue.js for the development of advanced web applications. Proficient in delivering clean, maintainable, and user-friendly solutions.

Currently seeking a dynamic company that provides opportunities for knowledge expansion and professional growth. I bring passion, enthusiasm, and a proactive approach, coupled with a strong willingness to acquire new skills and technologies.

## EMPLOYMENT HISTORY

### Frontend Developer, Fishawack Health via Everse

Remote - UK/PL

Jun 2022 — Present

Develop websites, web applications, and sales booth applications for medical conferences for our UK-based client.

- Write clean, modular, and well-documented code in Vue.js that follows industry best practices and company coding standards.
- Work closely with project managers to understand project requirements and timelines and communicate progress and roadblocks in a timely and transparent manner.
- Create project estimates that accurately reflect the scope of work, resource requirements, and timelines.
- Work together with backend developers to integrate frontend components with server-side APIs and databases.
- Collaborate with designers to ensure the feasibility of a project and that the final product aligns with the design.
- Test and debug applications to ensure high-quality and positive user experience.

A couple of the most recent projects:

- Avalere Health website <https://avalerehealth.com/>  
[HTML, SCSS, JavaScript, Vue.js 3(VueX, Router, Composition API), D3.js]
- Expert Partnership website <https://expertpartnership.com/>  
[HTML, SCSS, JavaScript, Vue.js 2 (VueX, Router, Options API)]

### Frontend Developer, Meej app

Remote - UK

Jan 2023 — Present

Co-develop 'Meej', a user-centric strength training app, in a collaborative effort with a UK-based professional handling backend development. The project, available on Apple and Google Play stores, begins with a focus on creating a Minimum Viable Product (MVP) and continues to evolve with ongoing enhancements and feature additions.

- Develop the frontend of 'Meej' using Vue.js 3, ensuring high performance and responsiveness of the application.
- Utilize SCSS for efficient and scalable styling, enhancing the app's visual aesthetics and user experience.

### **Intern / Junior Frontend Developer, Everse**

Rybnik, PL

Feb 2021 — May 2022

I started as an intern, assisting in the development of user interfaces for web applications. Along the way, I learned the Vue.js framework and progressed with other programming concepts by taking online courses in my free time after work. As I continued working at the company, I took on more responsibility and tackled increasingly complex projects.

After three months of internship, I was offered a Junior Frontend Developer position. At that time my responsibilities included:

- Worked with senior developers to build and maintain web applications.
- Collaborated with designers to implement responsive layouts and user interfaces.
- Wrote clean and maintainable code using HTML, CSS, and JavaScript, with a specific focus on developing and enhancing Vue.js framework skills.
- Debugged and troubleshooted issues with web pages and web applications.
- Followed coding best practices and adhered to coding standards.
- Continuously improved technical skills and knowledge through self-learning and training opportunities, with a particular emphasis on enhancing Vue.js framework skills and knowledge.

### **Full-Time, Self-Educating, Frontend Development**

Rybnik, PL

May 2020 — Jan 2021

Engaged in intensive, full-time, self-learning to establish a strong foundation in Frontend Development, leveraging online platforms like Treehouse, Udemy, and Frontend Masters. Successfully completed numerous courses, earning certifications in key technologies such as HTML, CSS, and JavaScript. This period of dedicated self-study allowed me to acquire essential skills in responsive design and web accessibility, forming the bedrock of my technical expertise in frontend development.

### **Sales Representative, Iveco Siltruck**

Skoczów, PL

Oct 2018 — Apr 2020

- Found and identified potential customers and generating leads for Iveco vans
- Built and maintained strong relationships with customers to understand their needs and provide tailored solutions.
- Presented the features and benefits of Iveco vans to potential customers through sales presentations, demonstrations, and test drives.
- Negotiated and closed sales deals, meeting or exceeding sales targets.
- Conducted research to stay up-to-date with market trends, competitor activities, and evolving customer needs.
- Ensured timely delivery of vehicles and addressed any post-sale concerns or issues customers had.

## Controller, Hermes Ltd.

Warrington, UK

Jun 2013 — Jan 2017

- Monitored and managed the automated parcel sorting process to ensure efficient and accurate processing of parcels.
- Identified and addressed any operational issues or concerns that arose during the parcel sorting process.
- Ensured that all health and safety regulations and procedures were followed.
- Conducted performance evaluations of staff and provided feedback and coaching to improve performance.
- Developed and implemented standard operating procedures and guidelines to improve the efficiency of the parcel sorting process.
- Liaised with other departments within the company, such as logistics, to ensure seamless coordination of operations.
- Analyzed data and produced reports on key performance indicators to help identify areas for improvement and optimize the parcel sorting process.
